## Shopify Developer

Tel. +58 424 6483492 @ Andreinadibrigida8@gmail.com [linkedin.com/in/andreina-di-brigida/](https://www.linkedin.com/in/andreina-di-brigida/) 📍 Venezuela (Latin America)

Results-driven Engineer with 4 years of experience building scalable web applications and robust data **integrations**. Expert in modern **JavaScript**, **Node.js**, and **HTMX**, with a proven track record of architecting efficient **API** layers. Specialized in seamlessly bridging the gap between complex backend architectures and client-side consumption through secure, scalable, and high-performance integrations.

### PROFESSIONAL EXPERIENCE

#### A-TeamWork

Web Developer | August 2025 - Present

- **Custom Application Development:** Engineered a custom Shopify application leveraging Shopify Devs APIs and GraphQL to automate data normalization, handling complex product variants, and streamlining catalog synchronization.
- **Redesign Leadership:** Currently leading the end-to-end frontend redesign of a jewelry platform, prioritizing **modern UI** and **performance**.
- **Performance Optimization and Technical Audits:** Conducted UX and performance audits via Lighthouse/PageSpeed to boost loading speeds by **47%** (Lighthouse score 38 to 56) through script optimization and layout rendering improvements.
- **CRO & Mobile-First:** Developed high-conversion landing pages and product collections.
- **Strategic Collaboration:** Partnered with design/marketing teams to align technical builds with business and conversion goals.

**Stack:** HTML, CSS, JS (JavaScript), Shopify, API, Lighthouse/PageSpeed Insights, Liquid, Figma

#### MBtek

Full-Stack Web Developer | August 2024 - February 2026

- **Custom Tool Engineering:** Developed the "System Builder," a complex logic-based questionnaire that automated product bundling for HVAC systems, directly increasing conversion rates.
- **Backend Automation:** Built a custom **Node.js/Express API** to automate warranty certificate generation via **webhooks**, utilizing **Puppeteer** for PDF rendering and **HubSpot integration**.
- **Dynamic UI Development:** Created a "Frequently Bought Together" snippet and dynamic landing pages using JavaScript to enhance cross-selling and **mobile responsiveness**.
- **Technical Problem Solving:** Responsible for debugging and resolving complex theme-related issues to ensure a seamless, high-performance user experience.
- **Performance & UX:** Optimized frontend metrics and **UI adaptivity**, prioritizing a fluid navigation experience for **mobile users**.

**Stack:** HTML, CSS, JS (JavaScript), Shopify, Liquid, Nodejs, ExpressJS, Hubspot, GraphQL & REST APIs

#### Exologic (Contractor)

Web Developer | December 2024 - August 2025 (+ December 2025)

Worked as a freelance (contractor) developer, consistently demonstrating professionalism, a strong work ethic, and adaptability to evolving priorities.

- Improved performance and code quality across multiple projects; used **Lighthouse** audits for web vitals, conducted multi-device testing, and consistently applied **Conversion Rate Optimization (CRO)** principles.
- Project: Deliverate & Localchat (Delivery App):
  - **Developed UIs** and implemented features, and redesigned the application's user interface (UI) using **Tailwind CSS**, **Daisy UI**, **Alpine.js**, and **JavaScript**, prototyping with **Canva** and **Figma**.
  - **Integrated real-time map** visualization for delivery tracking.
- Project: Exologic Company Website:
  - **Front-End Development** and **Optimization** for the company's website.
  - Built **responsive User Interface (UI)** components using **HTML**, **CSS**, and **Tailwind CSS**.

**Stack:** HTML, CSS, JS (JavaScript), React, Tailwind CSS, Daisy UI, MongoDB, Nodejs, AlpineJS, Lighthouse

#### Top Of The Line VA

Web Developer | June 2023 - June 2024

- Full-Stack Development for the ProspectorWeb Lead Generation Platform (**PHP**, **TypeScript**, **HTMX**, **Alpine.js**), including **UI/UX redesign** (Dark Mode, enhanced sidebar) and messaging automation features, prototyping with **Canva**.
- Configured and managed VPS servers, DNS settings, and business email services.
- Designed custom **landing pages** for clients and events using multiple **Page Builders**.

**Stack:** PHP, HTML, CSS, JS (JavaScript), TypeScript, MySQL, WordPress, AlpineJS, HTMX, Redis, Sass, Elementor, AirTable, GoHighLevel, Hubspot, Canva

#### Seguros Catatumbo

Analyst II. | June 2022 - December 2022

**Stack:** PHP, HTML, CSS, JS (JavaScript), MySQL, WordPress, IBM iSeries Database
